## Savage Gear 3D Line Thru Trout 20cm 93g SS 05-Firetiger From Savage Gear

Savage Gear 3D Line Thru Trout swim bait - made from a super detailed 3D scan of a Real Trout. The Innovative Savage Gear 3D Line Thru Trout Y-system that allows you to put the hooks either on the back or on the belly, depending on how you want to fish the lure. When the fish attacks the lure and gets hooked, the lure shoots up the line and away from the fish - so the fish cannot use the weight of the lure to throw the lure! The swimming action of the Savage Gear 3D Line Thru Trout is a close to the real thing as you can imagine - it literally swims like a live trout and it can trick even the most clever pike to attack! 3 Sizes from Savage Gear, 15cm, 20cm and 30cm SS & MS 2 models available, a Slow sink (SS) version with the line coming thru the mouth for shallow presentation and a moderate sink (MS) with line coming thru the forehead - to create a "stay" down swimming pattern - so you can fish the lure at depth all the way to the boat! Both sink rates have horizontal Balance on the drop!
